MAHLE

Driven by performance

**A WORLD FIRST!
ODOR FILTRATION YOU
CAN EXPERIENCE!**

S5 technology: 5 layers provide
5-fold protection.

NO MATTER WHAT'S IN THE AIR OUTSIDE, YOU CAN BREATHE EASILY INSIDE.

CareMetix®

The innovative cabin air filter
with S5 5-layer technology

MAHLE ORIGINAL

FI-1-318

YOU BREATHE IN, BUT SMELL NOTHING. CareMetix® ELIMINATES ODORS.

Traffic jams, tunnels, large construction sites, water treatment plants, and freshly fertilized fields—all these are sources of harmful ammonia and sulfur gases, which, until now, you have been exposed to in your car. The new **CareMetix®** cabin air filter provides protection through S5 5-layer technology—and blocks precisely these unpleasant odors. And it works: not just in the laboratory, but also on the road—tried and tested in everyday conditions!

URNS YOUR CAR INTO YOUR SANCTUARY.

CareMetix® — FOR TOTAL WELL-BEING.

The air we breathe is often polluted with harmful, allergenic substances and odors that conventional filters can't eliminate.

The solution: **CareMetix®**, a world first, with S5 5-layer technology—5 layers provide 5-fold protection.

CareMetix® — 5-FOLD PROTECTION THANKS TO S5 TECHNOLOGY.

CareMetix® with S5 5-layer technology

A WORLD FIRST!

Protection against odors before they arise

Protection against pollen

Protection against soot & fine particulates

Protection against mold

Protection against bacteria

When a vehicle is in operation, more than 3,500 cubic feet of air are swept into the cabin every hour. The only barrier against pollution: the filter in the ventilation system.
