

PRELIMINARY RELEASE

MAHLE Aftermarket moves to new European headquarters

- MAHLE Aftermarket completes its relocation to Schorndorf
- Around 400 employees now work at the Schorndorf location

Stuttgart, April 02, 2019—Everything under one roof: the Aftermarket business unit of MAHLE GmbH has relocated from Stuttgart to Schorndorf, both in Germany. Administration, sales, and logistics are thus combined at one location—for shorter distances and therefore faster response times.

With a modern office concept that encourages cooperation and a bright, inviting customer area for training and conferences, MAHLE Aftermarket's new competence and logistics center is impressive. Around 100 employees have relocated to the existing logistics center as a result of the move. This means a total of 400 people now work at the MAHLE location in Schorndorf, which was extended by around 3,000 m² to create additional office and customer spaces. The refurbishment of the company canteen, as well as 70 new parking spaces and the installation of charging stations for electric cars and bicycles for environmentally friendly transport at the plant also contribute to the improved working conditions at the location.

“Our relocation offers our customers real benefits. All the Aftermarket functions now work under one roof—this makes us even more agile and shortens the distances,” says Olaf Henning, Corporate Executive Vice President and General Manager MAHLE Aftermarket.

MAHLE Aftermarket, the MAHLE business unit specializing in spare parts, uses the expertise from the series production of original equipment in its automotive aftermarket product range and supplies trade, workshop, and engine repair partners. The portfolio also includes products developed by MAHLE Service Solutions for workshop equipment as well as comprehensive services and

customized training programs. MAHLE Aftermarket is represented at 25 locations and other sales offices worldwide, with around 1,600 employees.

About MAHLE

MAHLE is a leading international development partner and supplier to the automotive industry as well as a pioneer for the mobility of the future. The group's product portfolio addresses all the crucial issues relating to the powertrain and air conditioning technology—both for drives with combustion engines and for e-mobility. In 2017, the group generated sales of approximately EUR 12.8 billion with about 78,000 employees and is represented in more than 30 countries with 170 production locations.

About MAHLE Aftermarket

MAHLE Aftermarket, the business unit specializing in spare parts, uses the expertise from the series production of original equipment in its automotive aftermarket product range and supplies trade, workshop, and engine repair partners. The portfolio also includes products developed by MAHLE Service Solutions for workshop equipment as well as comprehensive services and customized training programs. The full extent of this expertise is found in the MAHLE, BRAIN BEE, BEHR, CLEVITE, IZUMI, KNECHT FILTER, and METAL LEVE brands.

MAHLE Aftermarket is represented at 25 locations and other sales offices worldwide, with around 1,600 employees. In 2017, the business unit achieved a global sales volume of over EUR 950 million.
