

THE THERMONATOR

Always a Great Choice: **The MAHLE Thermal Management Range** **with OE and OE-Matching Parts**

Quality, performance, and reliability—every time. Count on MAHLE's original equipment expertise and our comprehensive range of thermal management products that meet diverse market needs. Many of our products are available in two versions: OE parts in uncompromising quality or high-quality OE-matching parts engineered to meet specific demands of the independent aftermarket.

MAHLE PREMIUM LINE

- OE parts engineered for long-lasting performance throughout the vehicle's lifetime
- Extremely durable with best in-class performance
- Designed for peak performance under extreme conditions

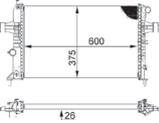

MAHLE OE-matching

- Tailored to aftermarket needs using our deep OE expertise
- Manufactured to MAHLE's rigorous standards for outstanding quality
- Delivering performance with excellent cost-efficiency

Clearly better: MAHLE PREMIUM LINE original equipment parts can be identified in TecDoc, in brochures, on the product itself, and on the packaging by the description "PREMIUM LINE" and the PREMIUM LINE logo.

Labeling in TecDoc

Radiator/engine cooling
