Brand quality, made worldwide according to German standards.

160 locations, 1 standard.

Our commitment is to always be close to our customers – whether in the original equipment or spare parts business. That is why we manufacture not only in Germany, but at around 160 other locations in 35 countries around the globe. One thing is particularly important to us:

Regardless of the country of manufacture, rest assured, you're getting quality guaranteed by MAHLE.

The same values, processes, and quality standards apply no matter which of our worldwide locations manufactured the product. When you purchase a MAHLE product, you receive MAHLE premium quality just as if it was “Made in Germany.” That is something you can truly rely on for any product manufactured in any MAHLE facility.

That is something
you can truly rely on.
