

Gaskets for the 6.7L Dodge Ram with Cummins engine

Power You Can Rely On. MAHLE Gaskets You Can Trust.

The Cummins® 6.7L turbo diesel engine powers the Ram 2500–5500 series with proven durability, high torque output, and exceptional towing capability. This engine continues to be a workhorse across commercial and heavy-duty applications, delivering up to 420 horsepower and 1,075 lb-ft of torque in later model years.

MAHLE is first to market with all the essential gaskets for complete 6.7L Cummins engine rebuilds—available in sets and individually. Technicians can count on MAHLE’s OE-quality components for precise fit and reliable sealing, ensuring they have the right parts at the right time to get the job done efficiently.
