

Gaskets for the Duramax L5P 6.6L engine

MAHLE® gaskets – quality you can trust!

The Duramax® L5P 6.6L turbo diesel engine is the successor to the LML engines. This next generation Duramax features a powerful, yet quiet, engine with greater efficiency compared to the older LML engines, with 470 horsepower and 975 lb-ft of torque.

MAHLE is **first to market** with all the required gaskets for the Duramax L5P engine rebuild – available in sets and individually; making it easier for the technician to access the quality parts they need, when they need them so they can do the job right!

mahle-aftermarket.com

The listed gaskets fit the 2017-2022 2500 HD and 3500 HD Chevrolet Silverado and GMC Sierra models.

MAHLE	Description	Includes
HS55522	Cylinder head gasket set	Head gasket not included (sold separately in a variety of thicknesses). Coolant gaskets, fuel injector o-rings, intake manifold gaskets, thermostat housing gasket, throttle body gasket, valve cover gaskets, EGR gaskets, EGR cooler gaskets, turbocharger gaskets, valve stem seals (see image below)

MAHLE®

MAHLE	Description	Includes
55522	Cylinder head gasket	Grade A thickness .047" - 1.20mm, material: multi-layered steel
55523	Cylinder head gasket	Grade B thickness .049" - 1.25mm, material: multi-layered steel
55524	Cylinder head gasket	Grade C thickness .051" - 1.30mm, material: multi-layered steel
VS50966	Valve cover gasket set	Contains (2) valve cover gaskets; material: beaded steel
SS46137	Valve stem seal set	Contains (32) valve stem seals; material: fluoroelastomer
MS20586	Exhaust manifold gasket set	Contains (2) exhaust manifold gaskets; material: multi-layered steel
MS20601	Intake manifold gasket set	Contains (2) intake manifold gaskets; material: fluoroelastomer molded rubber
TBD*	Lower set	Conversion set
67777	Rear main seal	Rear main seal; material: fluoroelastomer
67775	Timing cover seal	Timing cover seal; material: PTFE
GS34037	Water pump mounting gasket set	Contains all gaskets required for water pump installation
C33723	Thermostat housing gasket	Thermostat housing gasket; beaded steel
C33755	Coolant water bypass gasket	Coolant bypass gasket; material: beaded steel
C33756	Coolant outlet gasket	Coolant pipe gasket; material: beaded steel
G33834	EGR valve gasket	EGR valve to pipe; multi-layered steel
G33751	EGR valve gasket	EGR valve lower; multi-layered steel
F33823	EGR cooler gasket	EGR cooler gasket, valve to manifold; material: multi-layered steel
B33741	EGR cooler gasket	EGR cooler gasket; material: beaded steel
B33757	Engine oil cooler gasket	Oil cooler gasket; material: molded rubber
B33822	Turbocharger oil line gasket	Turbo oil line gasket; material: beaded steel
F33738	Turbocharger inlet gasket upper	Turbo inlet gasket upper; material: multi-layered steel
F33739	Turbocharger inlet gasket lower	Turbo inlet gasket lower; material: multi-layered steel
F33740	Turbocharger mounting gasket	Turbo mounting gasket inlet; material: multi-layered steel
F33844	Turbo mounting gasket	Turbo mounting gasket outlet; material: beaded steel
F33726	Exhaust pipe flange gasket	Exhaust pipe flange gasket; material: steel
G32595	Throttle body gasket	Throttle body gasket; material: rubber coated embossed steel
