

DEMAND THE BEST

MAHLE turbochargers for Ford 6.7L Power Stroke™ engines are designed to perform better than original equipment

These MAHLE remanufactured turbochargers utilize an improved ball bearing on the impeller shaft to better handle the heavy loads of a diesel engine, while extending the life of the turbocharger. Also, for convenience, these units include the mounting pedestal – saving the technician time and money.

Affected vehicles include*:

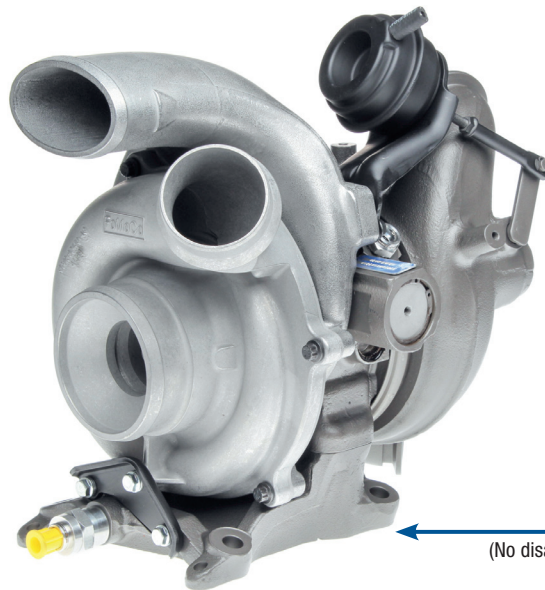

- F-250 Super Duty 2011-2014
- F-350 Super Duty 2011-2016
- F-450 Super Duty 2011-2016
- F-550 Super Duty 2011-2016

**Covers a total of 465,660 vehicles in operation*

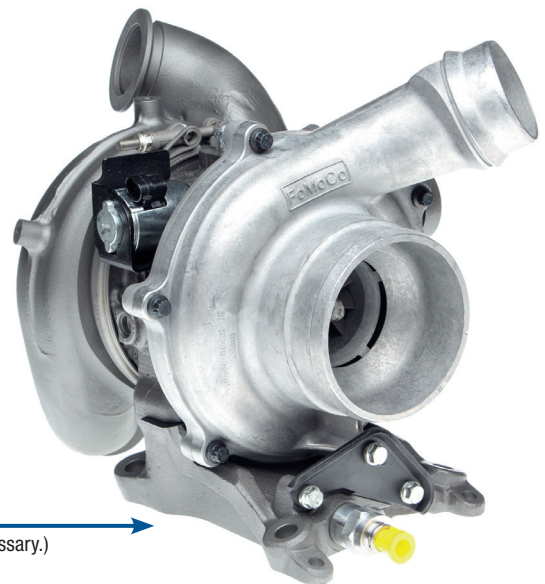

All MAHLE turbochargers include MAHLE gaskets and other components required for a turbo replacement.
