

Demand the Best

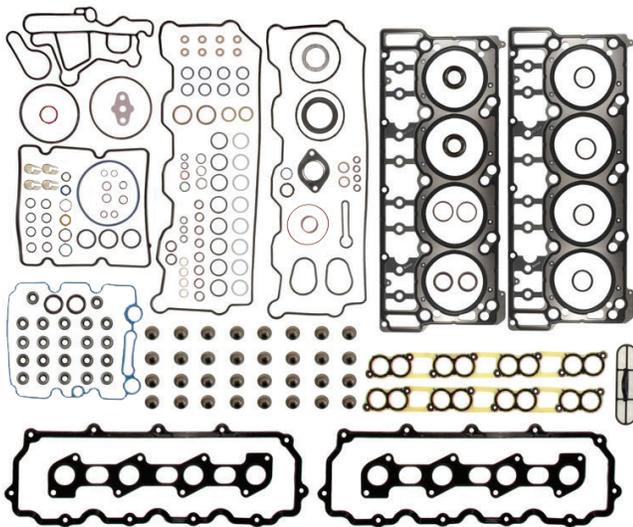

MAHLE

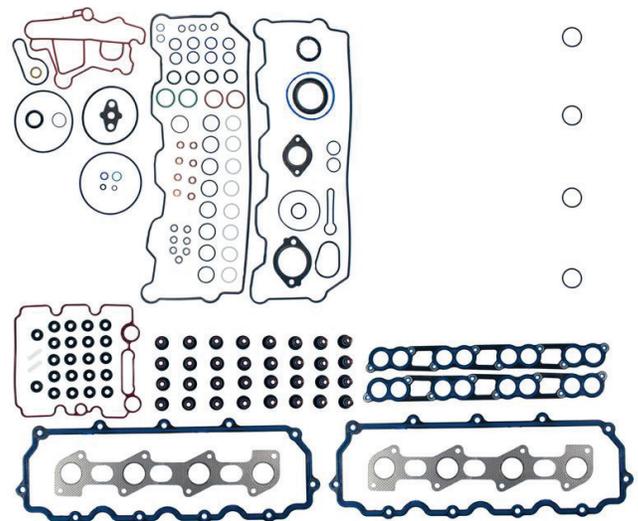

Ford 6.0L Power Stroke®
MAHLE has the MOST COMPLETE head set.

The difference isn't just the head gaskets... Not only does the MAHLE set include the head gaskets and 45 additional gaskets & seals (which are color coded to match OEM), you won't get the same quality anywhere else!

MAHLE Set (213 pcs.)

Competitor Set (148 pcs.)

MAHLE part # HS54450 (18 mm pictured; 20 mm HS54579 is also available)

TIP Torque-to-Yield head bolts sold separately – giving you the flexibility of using OE equivalent replacement bolts (available from MAHLE Aftermarket) or replacing the OE bolts with aftermarket studs.

Take a closer look at

the exhaust manifold & EGR cooler gaskets: MAHLE uses today's leading edge technology

MAHLE gaskets are application engineered multi-layered/embossed stainless steel which hold up against extreme temperatures of a medium duty diesel engine.

Competitor's gaskets are made of an inferior graphite composite material.
