

The ORIGINAL CHOICE in OE SEALING SOLUTIONS

MAHLE® gaskets are
99% Original Equipment
Form, Fit & Function

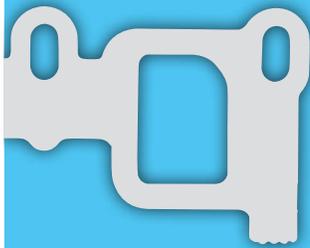

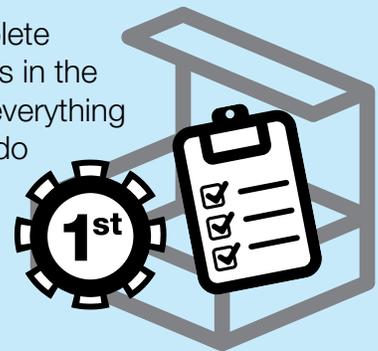

The MAHLE gasket offering includes over 700 'Advantage Plus' parts – which designates that the materials, design process, manufacturing, and/or set contents are not only as good or better than the OE standard, but go beyond any competitor offering in either coverage or quality.

Industry leading coverage of gasket sets for light vehicle diesel truck – engines such as Ford Power Stroke® and the GM Duramax®

Most complete set contents in the industry – everything needed to do the job

MAHLE gaskets are application engineered... designing engine gaskets as a system involving research and testing to apply the optimum mix of materials and technology to each engine application.
