## MAHLE Clevite expands the capabilities of their electronic Heavy Duty Engine Kit Website

✓

Ann Arbor, Michigan, April 9th, 2008 – MAHLE Clevite, already a leader in the use of the Internet for improved customer communications, has just added new features to the Heavy Duty Electronic Engine Kit Search Engine, making the site even more robust and intuitive.

Some of the new features you will find:

- A new look for the www.heavydutyenginekits.com site that mirrors the look and feel of the MAHLE aftermarket home page, instantly confirming you are in the right place
- You can now login into www.mahlecleviteorder.com directly from the website heavydutyenginekits.com site.
- New search features:
  - Search from any page using the right hand search window
  - Combined kit search, interchange search and application search into one search field that you can search for all of these and more!
  - Added search results filtering capabilities allows user to reduce their initial results with some helpful filtering items
  - Speed up search results by changing how many results appear on the page to 10, 20, 30 and giving record and additional pages to review all of the search results
- mahlecleviteorder.com users have the ability to add/edit/delete favorites, allowing the user to save the kits that are most important to them (must be logged in to use this feature)

"What page.

These features can be reviewed in greater detail by clicking on the "What's New" located in the lower right hand corner of the web page.

Come and visit us at <a href="http://www.mahleclevite.com">http://www.mahleclevite.com</a> and see all the new features.

The MAHLE Group is one of the 30 largest automotive suppliers worldwide. As the leading manufacturer of components and systems for the internal combustion engine and its peripherals, MAHLE is among the top 3 systems suppliers for piston systems, cylinder components, valve train systems, air management systems, and liquid management systems. With more than 40,000 employees in 110 production plants and seven research and development centers, MAHLE expects sales of approximately EUR 5 billion (USD 7.5 billion) in 2007.
