

MAHLE Aftermarket Inc. Releases 2016 Heavy Duty Catalog for Commercial Vehicles

Farmington Hills, Mich., April 7, 2016 – MAHLE Aftermarket Inc. recently announced the release of its 2016 comprehensive catalog for commercial heavy-duty vehicle applications in the United States, Mexico and Canada that includes all the company's product offerings in one resource.

"This year's catalog was designed to allow users to easily find parts for OE-to-MAHLE interchanges taking place anywhere in the vehicle, one-for-one," said Jon Douglas, general manager, MAHLE Aftermarket North America. "It makes finding the part you need remarkably straightforward."

The catalog features Navistar products, expanded coverage for MAN and Scania, and new thermostat coverage. The front portion of the catalog is written in English, French and Spanish.

"The expansion to our heavy duty catalog speaks to our commitment to provide our commercial customers with the widest variety of aftermarket parts possible," he added. "Our continually-expanding selection is one of the keys to MAHLE's role as a leading North American aftermarket parts provider.

The catalog can be downloaded in PDF format on www.mahle-aftermarket.com. It is also available online at catalog.mahle-aftermarket.com/na, where the application can be searched by product, vehicle make and engine.

About MAHLE

MAHLE is a leading international development partner for the automotive industry. With its products for combustion engines and their peripherals as well as for electric vehicles, the group addresses all the crucial issues connected to the powertrain and air conditioning technology: from engine systems and components to filtration to thermal management. MAHLE products are fitted in every second vehicle worldwide. MAHLE components and systems are also used off the road—in stationary applications, for mobile machinery, as well as in railroad, marine and aerospace applications.

In 2014, the group generated sales of EUR 9.94 billion (\$11.13 billion) with around 66,000 employees. Today, MAHLE is represented in over 30 countries with 170 production locations. At 13 major research and development centers in Germany, Great Britain, Luxembourg, the USA, Brazil, Japan, China and India, more than 5,000 development engineers and technicians are working on innovative solutions.
