

**MAHLE Aftermarket Inc., Announces it is the Official Air Filter Supplier for Chrysler's 707-hp Hellcat Engine.**

Farmington Hills, MI... March 16, 2016 – MAHLE Aftermarket Inc. officially announces that it is the OE air filter supplier for the Chrysler supercharged 707-hp Hellcat engine; the most powerful V8 engine sold to consumers by an American manufacturer for road use. The Hemi® Hellcat V8 engine, which uses MAHLE Original air filter part number LX 3482, powers the Dodge Challenger SRT® Hellcat as well as the Dodge Charger SRT® Hellcat\*. \*SRT is a registered trademark of FCA US LLC

"Never has an American car left the factory with more power on tap than those installed with the tire-shredding Hellcat engine," stated Jon Douglas, General Manager for MAHLE Aftermarket Inc. "These potent new engines, all equipped with superchargers capable of moving 30,000 liters of air per minute, exit the production line with MAHLE Original® air filters. That in itself is a true testament to their incredible design, quality, and durability."

MAHLE Aftermarket Inc. also supplies two additional filter components to Chrysler for Hellcat-powered vehicles including oil filter part number OC 705, and cabin air filter part number LA 782.

**About MAHLE**

MAHLE is a leading international development partner for the automotive industry. With its products for combustion engines and their peripherals as well as for electric vehicles, the group addresses all the crucial issues connected to the powertrain and air conditioning technology: from engine systems and components to filtration to thermal management. In 2014, the group generated sales of EUR 9.94 billion with around 66,000 employees. Today, MAHLE is represented in over 30 countries with 170 production locations.

*Driven by performance*

**About MAHLE Aftermarket**

MAHLE Aftermarket, the business unit specialising in spare parts, uses the expertise from the series production of original equipment in its automotive aftermarket product range. The business unit supplies trade, repair shop, and engine repair partners with products in original equipment quality—ranging from engine parts and filters to engine peripheral components and engine cooling components; while the Aftermarket’s Service Solutions division provides products for the Tool & Equipment Industry to technicians and workshops around the world. MAHLE Aftermarket is represented with 1,593 employees at 22 locations and other sales offices worldwide, including numerous logistics centres and regional offices. In 2014, the business unit achieved a global sales volume of over \$1 billion USD (EUR 836 million).
