

MAHLE Aftermarket Inc. Launches Online Catalog With Quick Access to Aftermarket Products

Farmington Hills, Mich., July 12, 2018 – MAHLE Aftermarket Inc. has launched a new online catalog that provides quick access to the entire MAHLE Aftermarket product offering including Asian, European, and domestic applications in North America for both light and heavy-duty parts in the MAHLE Original and Clevite brands.

The online catalog can be accessed at:
<https://catalog.mahle-aftermarket.com/na/>.

The MAHLE Aftermarket online catalog allows for searching by vehicle, engine or product by entering a part number, competitor interchange, year/make/model etc. in the search box. The design is responsive, so the contents automatically adjust to fit the screen of a laptop, phone or tablet.

The new product and coverage data are updated monthly. Users can save their vehicle or engine searches in their “favorites.” The online catalog provides coverage for millions of vehicle applications, reaching back to the 1930s.

“We pride ourselves on using technology to make our products more accessible to the end user,” said Jon Douglas, general manager, MAHLE Aftermarket North America. “The new MAHLE Aftermarket online catalog allows users to quickly and easily find the MAHLE products they need for every application they choose.”

About MAHLE

MAHLE is a leading international development partner and supplier to the automotive industry as well as a pioneer for the mobility of the future. The
(more)

group's product portfolio addresses all the crucial issues relating to the powertrain and air conditioning technology—both for drives with combustion engines and for e-mobility. In 2017, the group generated sales of approximately \$15.08 billion (EUR 12.8 billion) with around 78,000 employees and is represented in more than 30 countries with 170 production locations.

MAHLE Aftermarket, the business unit specializing in spare parts, uses the expertise from the series production of original equipment in its automotive aftermarket product range, and supplies trade, workshop, and engine repair partners with products in original equipment quality. The product portfolio is supplemented by workshop equipment developed by the MAHLE Service Solutions division as well as comprehensive services, and customized training programs. The full extent of this expertise is found in the brands MAHLE ORIGINAL, BEHR, CLEVITE, IZUMI, KNECHT FILTER and METAL LEVE.
