CHECKLIST

Air conditioning/heating/ventilation/cooling system

System type:													
	R134a R1234yf R744 (CO ₂)				Other Front evapora			or	Rear evaporator Electric compressor				
Refrigerant analysis:	R134a: 9	% R1234yf	: %	R744:	%	Other:	%	Air:	%	HC:	%		
Pressure values:	High-pressure side: bar Low-				w-pressure side: bar At:					rpm			
Temperature:	Outside temperature:				°C Discharge temperature:					°C			
Refrigerant quantity:	Extracted:	g Refilled	l: ç	Refrigerant	oil: E	Extracted:	g Re	efilled:	g	Type of oil	:		
Component		ок	NOK	Corr./rep.	Compo	onent			ок	NOK	Corr./rep.		
1. Read out fault mem	iory					ses and lines							
Control instruments Switch/control unit Blower motor functi Interior temp. senso Air distribution/recir	on or (A/C automatic)				Cor Cha Mo	aktightness nnections afing points unting vice connect	or caps/valves
