

MAHLE

Thermal Management
“Made by MAHLE”

Formerly Delphi, now BEHR

BEHR[®]

One of the most comprehensive ranges of thermal management products — perfectly complemented.

Formerly Delphi, now BEHR: the previous manufacturer's popular thermal management products have found a new home. The familiar range of air conditioning compressors and other heating and cooling products in guaranteed OE quality are only available from us. And now produced in our own plants. Made by MAHLE.

OE quality guaranteed

Having an experienced, dependable, and innovative partner is all the more important at a time when mobility is rapidly changing, and economical, climate-friendly combustion engines exist alongside alternative drive concepts. A partner you can simply trust and whose constantly growing product portfolio fulfils every wish. A partner like MAHLE.

That's why we acquired the thermal management plants of automotive supplier Delphi Automotive PLC some time ago. Of particular importance to us in this context was the air conditioning compressor

range, which is now also available to the independent parts market under the BEHR sales brand and MAHLE umbrella brand—in OE quality, of course.

Further parts in original equipment quality—such as air conditioning condensers, fans, charge air coolers, radiators, and much more—perfectly complement the already extensive thermal management range.

Just under **200 parts** all told, summarized for you in a handy table in this brochure.

➤ MAHLE always puts the customer's needs first. That's why we offer the most extensive premium range for automotive air conditioning and engine cooling in the independent aftermarket. PREMIUM LINE features OE-quality spare parts that are designed to last for the vehicle's entire life cycle. Even under extreme conditions, they deliver peak performance.

**PREMIUM
